

Automated Bill Payment

Streamlined Management of Your Technology Expenses

CONSIDER THIS...

The paper invoice payment process costs an average company **\$23 per invoice**.

Add the amount of time spent logging into portals, reconciling the invoice, and submitting proper paperwork, and the **cost can rise by an incremental 40%**.

The process yields an estimated **average total cost of \$32 per invoice**. Multiply that by **500 or more invoices monthly** – **what is this activity costing your organization?**

What is impact of disconnected service **due to failure to pay?**

It doesn't end when a payment is made. **Payments get misapplied all the time; what does that cost?** Now you must log into a portal, find the invoice, call the provider, find the correct department, and get transferred multiple times, only to be disconnected and try again. Is this worth the time spent?

Advantage can manage payments to all of your providers.

Benefits

✓ INCREASE REVENUE

- Optimize capital
- Focus on core business

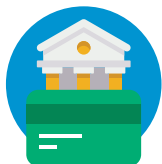

✓ REDUCE EXPENSES

- Automated payments engine
- Reduce paper processing
- Redeploy AP processes

✓ MITIGATE RISK

- Realtime visibility
- Enhanced control
- Spend Strategically

Automated Payment Workflow

Disbursement

Payments are sent to suppliers based on supplier enrollment preference

- VIRTUAL CREDIT CARD
- ACH
- ENHANCED AHC
- CHECK
- EMAIL PAYMENTS
- PORTAL AUTOMATION
- FAX
- CONCIERGE PAYMENTS

Consolidated Settlement

Settlement data is captured in a consolidated file and pushed back to your ERP for updates. You have full status visibility and reporting access through our Command Center user portal.

Why Advantage?

We optimize the technology lifecycle at no cost to you.

Advantage brings value to you and your stakeholders through 5 key stages in your technology journey. This enables you to leverage industry experts at each step of the process and fits you with the best solution for your organizational needs.

From procurement and provisioning through inventory and expense management, we optimize your communications solutions across voice, data, cloud, and mobility. Advantage is your team behind the scenes—so you can focus on success.
