

Command CenterSM

A single platform for all connectivity services, inventory detail, and expenses.

“Command Center has been an extraordinary benefit to our organization with complete visibility into technology invoices and expenses — all stored in one place for our team to easily access.”

— **George Stamatinos, PT, DPT**
Director of Compliance & Quality Assurance

Access your entire connectivity ecosystem, including meticulous order, contract, inventory, support, vendor, and spend records, using Command CenterSM. This unique SaaS platform from Advantage[®] provides situational awareness with actionable insights saving valuable time and simplifying day-to-day operations.

With Command CenterSM, you can:

Review Inventory

Gain critical visibility on services across every site location with advanced filter options.

Oversee Vendors

Monitor ongoing service provider performance via Ticket Management.

Maintain Contracts & Orders

Review all agreements and receive automated alerts for any upcoming expirations or renewals.

Manage Expenses

Check any invoice at any time, and know that we'll handle billing disputes on your behalf.

Request Support

Open and track tickets to completion with regular status updates from our team.

Data-Driven Results

Make more impactful decisions across your global enterprise by **bringing unparalleled accuracy to all data** with Command CenterSM.
