Operation Services

Engage our team of skilled IT experts to seamlessly transition or update any connectivity service at any time.

"We've enjoyed partnering with Advantage to seamlessly switch over service providers and capture great cost savings."

— Lance Schroeder, Network Administrator at Billerud

Advantage® works as an extension of your team by supporting all post-live operations, including:

- **Inventory Management**
- **Incident & Escalation Management**
- **Service Moves, Adds, Changes, and Disconnects**
- **Vendor Management**
- **Data Visibility & Reporting**

Immediately access your inventory data via our proprietary SaaS platform, Command Center℠.

With just a few clicks, Advantage® clients can confirm contract renewals, report on spend, open a support ticket, and more.
