

About Advantage[®]

Reinventing lifecycle management for digital networks and communication services worldwide.

The First Global Connectivity MSP

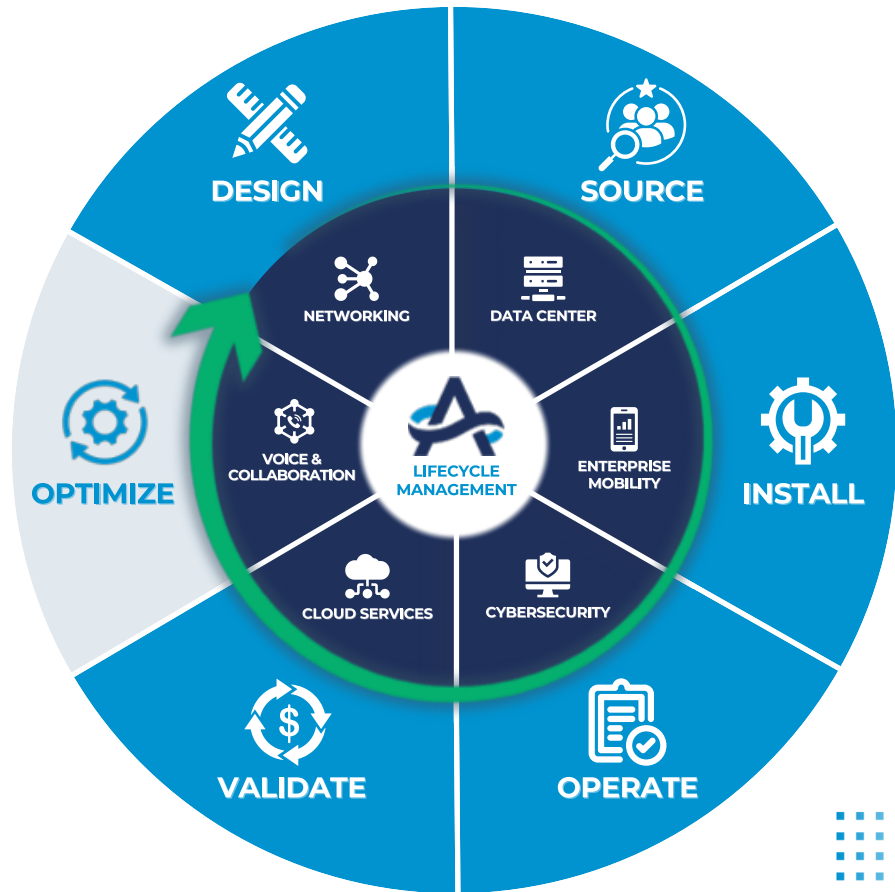

For over 20 years, Advantage[®] has resolved complex connectivity obstacles by leveraging our Business Case roadmap, Technology Lifecycle Optimization (TLO) methodology, and Command CenterSM SaaS platform to drive unprecedented technical, financial, and operational outcomes.

800+
Partner
Providers

Starting with our Business Case, we provide a tailored roadmap to achieve operational excellence in your organization.

Advantage[®] then applies our proven TLO methodology to address every aspect of connectivity lifecycle management.

Command CenterSM is your single source for ongoing insights into all of your global connectivity services, including contract, order, service, and expense management.

Your Competitive Advantage

Advantage[®] will accelerate your time to value by delivering exceptional technology infrastructure solutions that have collectively **saved our clients millions of dollars**, in addition to recapturing invaluable time by offloading tedious tasks for maximum efficiency.
